

LANDOWNERSHIP: EXPLANATORY NOTE

The project including its transmission line as proposed by the applicant would be constructed on one property (Rooipad, Portion 9 of Farm 15) and would tie in directly to the 22 kV line running along the Western boundary of the property and the Augrabies National Park. This property is owned by the Martin Oosthuizen Trust and managed by Riverbank Farms (Pty) Ltd. The neighbouring farm to the East Vuursteenkop (Portion 20 of Farm 15) has the same landowner and management. To the North and West of this property is the Augrabies National Park.

If the electricity transmission company, Eskom requires that the transmission line tie in directly to the Blouputs substation located on Padrooi Farm 431, owned by the Burger Du Plessis Familie Trust, then this would involve an additional landowner and additional neighbours of this property.

The environmental Basic Assessment is including this possible transmission line extension, in case it is required.
