

SCHEDULE OF PUBLIC PARTICIPATION AND SITE VISITS MEETINGS HELD FOR AUGRABIES PV PROJECT IN NOVEMBER 2013

Certain Interested and Affected Parties requested special meetings in addition to the Public Meeting held on 19 November at the Augrabies Community Hall.

| Person | Organisation | Date | Venue | Nature of meeting |
|-------------------------|---|----------------------|--|--|
| Public Open Day meeting | [Public] | 19 Nov 13, 3pm | Augrabies Community Hall | <ul style="list-style-type: none"> • Informal presentation of project and specialist findings. • Question and answer session. |
| Formal Public meeting | [Public] | 19 Nov 13, 6pm | Augrabies Community Hall | <ul style="list-style-type: none"> • Formal presentation of project and specialist findings. • Question and answer session. |
| Frans van Rooyen | South African National Parks | 20 Nov 13 | Augrabies National Parks office and park site visit. | <ul style="list-style-type: none"> • Repeat of presentation of project and specialist findings made at public meeting. • Presentation of visual impact specialist report including drawings. • Site visit to the new Swartrante view site to view the proposed PV site from the National Park. Only the top half of a windmill on a hill above and in front of PV Site 1 was visible from the Swartrante view site. This confirmed the findings of the supplementary visual impact report (Appendix D-6-3) that PV site 1 would not be visible from the Swartrante view site. |
| Jan Du Plessis | Neighbouring landowner and landowner for possible transmission line | 20 Nov 13 | Oseiland Boerdery and site visit to R359 and road to Blouputs. | <ul style="list-style-type: none"> • Repeat of summary presentation of project and specialist findings made at public meeting. • Presentation of information including drawings relating to possible transmission line extension. • Site visit to R359 to show on site location of proposed PV sites 1 and 2. • Site visit to Blouputs substation to show on site location of proposed transmission line. • The landowner was principally wanting 'on the ground' clarification on how the proposal would affect his land. |
| Martin Oosthuizen | Landowner (Rooipad 9/15) | 19 Nov 13; 20 Nov 13 | Augrabies Hall; Vuursteenkop | Clarification of impacts on farming especially water usage of the proposed project. |
| Shaun Cloete | Water Affairs | 26 Nov 13 | Rooipad 9/15 | Water Affairs requested to be shown the site on the ground. Particularly they wished to see the drainage lines. They were however unable to make a time during the week of public participation and ground-truth checking in Augrabies conducted by the |

| | | | | Environmental Consultant. Eight boundary steel pegs of approximately 1.5 metres in height were thus placed using a GPS at each of the four corners of the four corners of the two proposed sites: Site 1 and Site 2. Water Affairs were then shown the locations of these eight boundary markers by the farm manager on a date. |
| Johan Nel | Vuursteenkop farm (farm manager) | 21 Nov 13 | Rooipad 9/15 | Site meeting to locate four corners of each of the two proposed sites: PV1 and PV2. |
| Vivian McPherson | Kai Garib Municipality | 19 Nov 13 | Kai Garib Municipal Building, Keimoes | <ul style="list-style-type: none"> • Repeat of presentation of project and specialist findings made at public meeting. • Discussion on special questions. Noted in Email to Vivian McPherson dated 10 December 13 in Appendix E-10(1) |
