Subject: Meeting 19 November 2013

Dear Mr McPherson

Thank you for our meeting on the Augrabies PV project on 19 November 2013. I note your concerns as follows:

- * A presentation to the full Kei Garib council at one of its pre-scheduled meetings on the proposed PV project including a description of the project and the process of construction the environmental specialist study findings before the consideration of the rezoning application.
- * Assistance in the maintenance of the road to the Solar Facility, because it may attract tourists and thus traffic on the road.
- * Some local education and training in the electrical and/or Solar PV field.

Yours sincerely,

Philip Rosenthal
